

Private Residence Security Solution Protection for a Family, their Cars & Home

Location	Auckland, New Zealand
Brief	Protect a high value private residence and car collection from damage and theft
Solution	3 automatic Bully Boy bollards 3 Bright-Top lighting modules

BACKGROUND

A passionate car collector with a luxury residence was aware of the potential for theft and decided he needed a convenient and robust solution to increase the security of his family, his cars & his house.

A security company recommended Bully Boy for the job & the owner decided to proceed.

He liked the idea of an extra tough NZ engineered product, with minimal maintenance requirements and a modern aesthetically pleasing look to match his high quality property.

SOLUTION

3 automatic Bully Boy bollards installed in the foundation of the building during construction provide the required security solution. The Bully Boy system is interfaced to the alarm and access control system on the property.

RESULTS

A convenient, aesthetic and secure solution that provides the owner with real peace of mind.
